

Question Time

To the members of the Programs Subcommittee:

Could you provide a report to the Senate on the progress and status of implementation of SD 23-5: Revision of General Education Program? There have been rumors of difficulties, challenges and pressures from various parties (both on and off campus) regarding the program. To dispel rumor and establish fact, it would be helpful to have an update provided to the full Senate about how the Programs subcommittee is carrying out the charge that the Senate has given to the subcommittee.

S. Buttes
