## Sigma Xi Hosts Panel Discussion on Undergraduate Research at IPFW

FORT WAYNE, Ind.—Indiana University–Purdue University Fort Wayne (IPFW) offers undergraduate students the opportunity to engage in research projects with faculty from all of the university’s schools and colleges. But not everyone knows about these opportunities. To remedy that situation, IPFW’s chapter of Sigma Xi, the scientific research society, is hosting a panel discussion, “Undergraduate Research at IPFW,” Monday, Oct. 24, from noon to 1 p.m. in Kettler Hall, Room 246.

Panelists for the discussion will be Director of Graduate Studies George Mourad, a professor in the Department of Biology who has had many undergraduate students involved in his research projects; Mark Masters, chair and professor of physics, Michelle Drouin, assistant professor of psychology; and Todor Cooklev, ITT associate professor of wireless communications and applied research and director of IPFW’s Wireless Technology Center.

The panel discussion is free and open to the public; free pizza will be served. For more information, contact Cooklev, who is also president of IPFW’s Sigma Xi chapter, at 260-481-0151 or [cooklevt@ipfw.edu](mailto:cooklevt@ipfw.edu) or go to <http://new.ipfw.edu/affiliates/sigmaxi/>
