

Ladder Safety Training Certification

In compliance with OSHA 29 CFR 1910 Subpart D- Walking-Working Surfaces regulations, Ladder Safety Training covers the following:

- General construction of ladders
- Different types of ladders
- How to select a ladder for a specific area
- How to properly set up a ladder
- How to identify equipment damage and proper ladder functionality
- Proper ladder storage and maintenance
- Safe ladder setup locations on a worksite

After reviewing the PowerPoint training provided by PFW EHS on Ladder Safety, please complete and return a copy of this form to your supervisor or Designated Trained Individual (DTI). Your supervisor or DTI will provide additional information and training as appropriate.

By signing below you acknowledge that you are aware of the potential hazards associated with ladders, best practices for set up, storage, and maintenance of ladders, and the policies and procedures applicable to the OSHA 29 CFR 1910 Subpart D - Walking-Working Surfaces regulation.
