"The Purdue Fort Wayne graduate program in Mathematics was everything I was looking for and more. It was engaging, thorough, and highly interactive. The courses covered a broad range of areas and disciplines, each with significant depth, and the knowledge of the professors was outstanding. My experiences not only expanded my knowledge of mathematics, but also taught me effective ways to motivate and teach the students in my classroom."

Jason Barnes

"As an undergraduate, I didn't want to pursue a bachelor's degree in mathematics. I earned my B.A. in chemistry and minored in mathematics. At Purdue Fort Wayne, I caught up on some of the courses I was missing in the process of pursuing my M.S. Then, after graduating from Purdue Fort Wayne, I worked at a software company for two years before deciding to pursue my PhD. Faculty at Purdue Fort Wayne were great to work with, and have always been very supportive. Dr. (Doug) Weakley was tremendously helpful in assisting me with my transition into the program at Purdue Fort Wayne."
