Online Registration
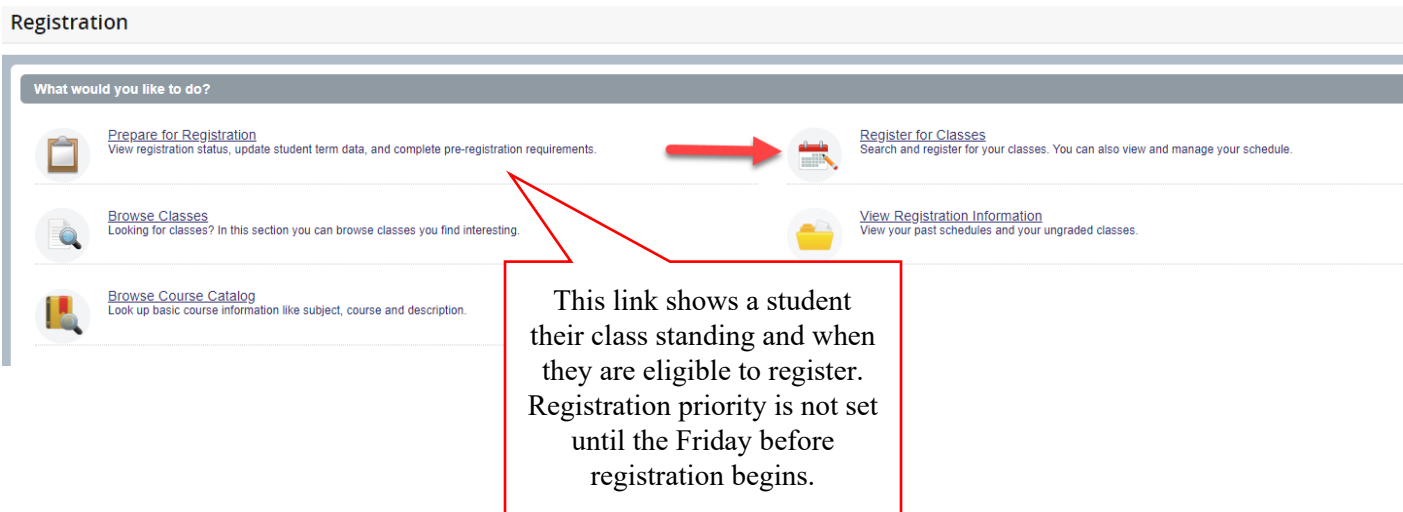

Go to https://experience.elluciancloud.com/pfw

1. Enter username and password. All continuing, active students have a network account. Newly admitted or re-admitted students have a network account created upon admission. First time users need to click on "First-Time User" and follow the instructions to activate the network account – this includes finding out what their username is, setting up their password, and setting up a security question and answer. If the student has activated their network account but has forgotten their username or password, click on "Forgot username/password link (links identified with red arrow below). Contact ITS HelpDesk (x16030) for additional assistance. Registrar Office staff do not have access to student's network account username or password.

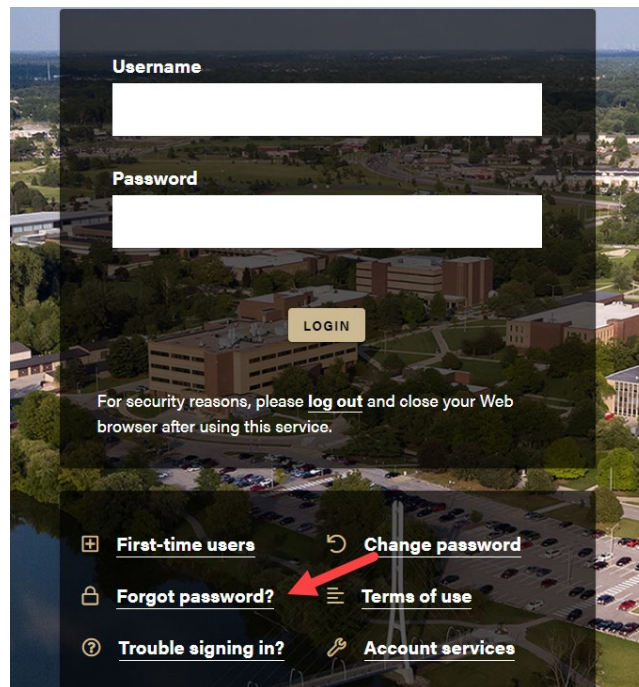

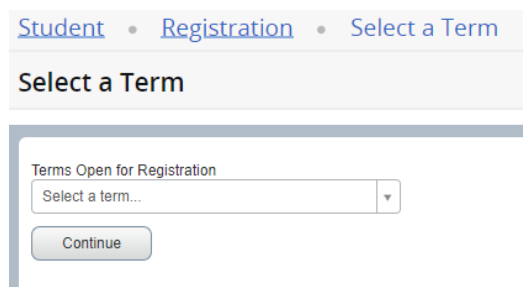

2. After logging in to goPFW, click on register for classes in the Registration card.

5. If the student is already registered for some classes, they will appear in the bottom half of the page. Under the "Enter CRNs" heading, there is an empty box. Select "Add Another CRN" to add more boxes. Enter CRNs in the boxes and click the "Add to Summary" button. The courses will then show up in the schedule and summary at the bottom of the screen as "pending." Be sure to then select "submit" to register for the selected courses. The pending status will change to a green registered if successful. Any registration errors will show up in the upper right of the screen.

6. The second option for registration is to click on the "Find Classes" tab at the top of the register for classes page. This takes the student to a searchable schedule.

COURSE SEARCH OPTION

7. When searching my subject you'll see a list of all available sections. You can add the desired section to your course summary, where it will be pending until you submit your summary in the bottom right.

ADVANCED SEARCH OPTION

There are many options that can be utilized in the search. The student may choose any combination of fields to narrow the search. After choosing search options, click the "Search" button.
