

Question Time

SD 19-28 asked that the “university administration make a report to senate at the first meeting of Fall 2020 about how the [CARES fund] was distributed.” The last known amounts were \$5,589,305 total, of which at least \$2,794,653 were supposed to be awarded to students as emergency Financial Aid Grants. Since no report was announced for the first meeting of Senate in September, I ask, in my role of chair of the Senate Executive Committee: (1) why was no report submitted for inclusion to or delivered at the September meeting, and (2) when does our administration plan to do?

B. Buldt
