Proposed

9.4.2 Dismissal. No student shall be dismissed from the university for academic reasons prior to the completion of 12 credit hours. Any student who has completed 12 credit hours and is on probation shall be notified of dismissal by the Registrar if the student does not meet the minimum cumulative GPA requirements in the following table:

[Table of GPA levels for dismissal here.]

An appropriate notation shall be made on the transcript. Any grade change will require recalculation of dismissal status.

9.4.3 Readmission. A student who has been dismissed from IPFW may not re-enroll until one fall or spring semester has passed. Thereafter, the student may be re-admitted according to procedures specified by a school or division. All readmissions are into probationary status. Readmissions shall be reported to the Registrar, and an appropriate transcript entry shall be made.

No student who has been dismissed from IPFW may be admitted by another IPFW academic unit unless at least one fall or spring semester has elapsed since the student was dismissed. A student dismissed from another campus of Indiana University or of Purdue University may enroll at IPFW only after successful application for readmission.

9.4.2 Dismissal. A student who has completed 12 credit hours following the most recent admission or readmission and who is on probation shall be notified of dismissal by the Registrar if the student does not meet the minimum cumulative GPA requirements in the following table:

[Table of GPA levels for dismissal here.]

An appropriate notation shall be made on the transcript. Any grade change will require recalculation of dismissal status.

9.4.3 Readmission. A student who has been dismissed from IPFW or from another campus of Indiana University or Purdue University may not enroll at IPFW until one fall or spring semester has passed. Thereafter, the student may be readmitted according to procedures specified by a school or division. All readmissions are into probationary status. Readmissions shall be reported to the Registrar, and an appropriate transcript entry shall be made.
