Re: Proposal for a minor in Labor Studies - For Information Only

The Curriculum Review Subcommittee has voted to inform the Senate that the Minor in Labor Studies requires no Senate review.

Subject: Minor in Labor Studies

The Labor Studies program has asked for approval of a minor in the discipline, citing the existence of minor subject programs in Labor Studies at the other IU campuses. The following information has been proposed for the Bulletin:

Labor Studies Minor

A minor in Labor Studies requires the completion of 15 credit hours consisting of six credits from the Labor Studies Core Course list and nine additional credits in other Labor Studies courses, chosen from other core courses, more advanced courses, topics courses, or courses used for internship and directed study projects.

I would recommend that the Curriculum Review Subcommittee endorse the creation of the minor.
